

TO: Teams Manufacturers

CATEGORY: Hypercar LMP2 LMGTE Pro LMGTE Am

DECISION N°: WEC_2021_D0006_All_Fuel pump procedure scrutineering_ **Amended**

DATE: 12/03/2021 **FROM:** The WEC Committee

SUBJECT: Fuel pump procedure applicable for Scrutineering

APPLICABLE REGULATION

2021 FIA World Endurance Championship Sporting Regulations

DECISION

Fuel pump procedure applicable for Scrutineering

Safety:

All fuel manipulations should be done respecting the regulations (extinguisher, overall, balaclava, goggles, gloves, shoes, underwear...)

Fuel sample:

If a fuel sample is required, it should be done by collecting fuel directly by using the fuel line going out of the chassis, as per the relevant Technical Regulations.

Procedure:

All teams will be allowed to pump out fuel using their own fuel bowser inside the "Parc Fermé" under the supervision of a Scrutineer.

~~For Hypercar, Competitors should empty the tank by connecting to a pipe which end is located at the lowest point of the collector.~~

~~For other categories,~~ At the end of the procedure, it will be required to fit a transparent line on the fuel line going from the chassis to the engine and activate all car fuel pumps. During this procedure, Competitors will be required to display the supply current of all the fuel pumps.

PERIOD OF VALIDITY/APPLICATION OF THE DECISION

This decision comes into effect:

- with immediate application**
 from:

And is applicable:

- until further notice**
 for the mentioned Competition(s) only
