PURPOSE OF THE REQUEST

6.5.6
Provisions regarding tyre heating, handling and modification
Any process that involves a direct or indirect attempt at modifying the temperature of a tyre (compared to the ambient temperature) is forbidden.

Please could the committee clarify if the tyres stored inside the tent need to have their temperature regulated down to ambient conditions? Is having the tyres in direct sunlight is seen as an indirect attempt at modifying the temperature, even if they are under the teams tent with appropriate ventilation?
