PURPOSE OF THE REQUEST

Further to Comite Decision WEC 2023 D0050. Please could the comite clarify the wording:

“This limit is raised to 22 for a car homologated with an ERS, one of the two additional spaces being compulsory reserved for the personnel of the hybrid suppliers designated for the cars of the LMDh group.”

Please can the comite confirm that the one space designated for Hybrid support personnel are the personnel from Bosch and WAE?

If this is the case, can the comite confirm that these support personnel, who are shared between the LMDh teams, will be allowed to go to any garage providing they have an armband or do they need an armband per team?

In the same context, please can the comite clarify that providing you are wearing an armband, you are allowed to work in any garage? For example, manufacturer staff, wearing the manufacturer team's armband, maybe required to help a customer with an issue.
