PURPOSE OF THE REQUEST

Dear Committee,

6.5.5 Heating, treatment and modifications

.....
Tyres, wheels and rims must remain entirely visible, without any form of obstruction, throughout a Competition. They **must only be stored in the outside area situated immediately to the rear of the garage** They must be visible to officials at all times of the Competition, at the timing defined in article 4.4.2.

Can you pls clarify the definition “immediately to the rear of the garage”, or give the accepted tolerance to all the competitors, so tat we all have the same starting conditions for the tyres before they are fitted to the cars.
