

# FIA World Endurance Championship

## 6 Hours of Fuji

---

**From:** the Race Director

**Communication N° 03/2025**

**To:** all Entrants in the Championship

---

### **CLARIFICATION**

Following several questions asked on the subject of the overtaking of cars on track by a car entering the pit lane during a neutralization that affects pit entry and or pit exit below is the interpretation we do.

*Concerning the pit entry and pit exit roads the following principle will apply:  
When entering or exiting the pit lane, during a neutralization, the relative position of any car between SC line 1 and SC line 2 becomes irrelevant relating to other cars on track.*

*Cars entering or exiting the pit lane at the same time may not overtake between themselves.*
